

Corvin Fox Shield

Dedicated IR35 Protection

CORVIN FOX

Corvin Fox Shield

With Corvin Fox Shield we remove the risk of liability and take on your administration headaches by engaging your Interims through us.

Here's a breakdown of our shield service

1. Full Workplace Assessment

- A full workplace assessment carried out by our legal partner
- A report based on case law that will determine whether your current Interim Manager/ Consultant assignments will be inside or outside of the new IR35 legislation from April 2021.

2. Full Contractual Review

- T&C's and "Contract for Services" reviewed against legislation and continually updated against any future changes.

3. Completion of SDS Report (Status Determination Statement)

- This is a legal requirement from HMRC.

4. Interim Objections

- Within the legislation the Interim can object to the SDS decision and ask for the decision to be reviewed. We will also cover this off.

5. Changes in Assignment Circumstances e.g. extension, new objective

- "Contracts for Services" will be updated.
- Workplace reassessment will be carried out.

Benefits to You

- Your risk will be removed as HMRC Liability will transfer from the client (you) to the fee payer (us).
- We will remove a significant amount of administration from your Hr and Finance Departments.
- We will remove a huge amount of non-value added management time for your team.
- The changes will protect your brand and reputation.
